

Farming for a Successful Future

Brought to you by Farm Nutrient Advisory Ltd. a sustainable farming event to help navigate the increasing environmental and consumer demands farmers face. Farm efficiency and profitability have never been more important.

All profits going to the Lowe Corporation Rescue Helicopter service.

Further your knowledge with guest speakers:

- Feeding ruminants to reduce emissions - Dr Lucy Waldron;
- Soil & pasture testing essentials - Sarah Stiles-Jones;
- Soil nutrients & their fate - Dr Gordon Rajendram;
- Get the economics right, the environment will follow - Barrie Ridler;
- “Regenerative” it’s just working with nature - Dr Hugh Jellie.

Event MC - Richard Lee from HB Vet Ltd.
